

# Identity Theft Is There Another You?

The *real* Danny Lents, a 20-year Army veteran, is a computer engineer in his professional life. He has a bachelor's degree in Computer Science and a masters degree in Computer Engineering. He owns Blue Canyon Software Consulting, Inc. ([www.BlueCanyonSoftware.com](http://www.BlueCanyonSoftware.com))

He became a victim of identity theft in 2001. His thief spent \$16,000 in thirty days! Danny has devoted countless hours of research to protect himself and is passionate about helping others to avoid becoming the next ID theft victim. He is often sought by local and national media for his identity theft expertise.

Danny has presented ID theft seminars to numerous groups around the country, made multiple television appearances, testified before a Texas Senate committee, and started [www.IdTheftAwareness.com](http://www.IdTheftAwareness.com) to provide others with the knowledge to avoid, detect, and react to an ID theft attack.

- What is identity theft?
- How does it happen?
- How can you avoid it?
- How do you stop your thief?

Identity theft is the fastest growing white-collar crime in America. Millions of Americans become victims each year. Identity thieves attack businesses and people of all ages and incomes.

Knowledge is our best defense.

### Testimonials:
